Handwritten Notes

Printed Documents

How will your phone work with qipit? [See our compatibility chart](#)

What's Qipit magic? The Qipit service is based on sophisticated, highly optimized image-processing algorithms. As a result, Qipit delivers crisp, clear, digital copies of your documents thereby offering a whole new way to capture, store and share written and printed information.

Test Qipit now! Take a picture of a printed document with your camera phone or digital camera. Send the picture from your phone or via email to copy@qipit.com. You'll receive a link to the online digital copy of your document. **Free!**
